## **What is the term of this agreement?**

If you feel this programme is not right for you and your business you can leave at any time. We ask out of consideration that you give 1 months' notice in writing. If you wish to remain an Insider you would be very welcome, however we would ask that you ensure Insiders are aware that you are not an affiliate. Your marketing material, links and affiliate offer will be removed on notification that you wish to leave – however we hope that will not happen. We work closely with our affiliates to ensure it's a success for our members, you and us.

## **The Affiliates that benefit the most from this programme tend to do some or all of the following;**

- Deliver a webinar to the Insiders confidential mastermind group – 10 to 60 minutes at a time convenient to you. We promote this across our entire network however only Insiders can access the content and engage with you. You need to be an Insider to be able to use this opportunity.
- Supply articles, reports and advice to the BWN Insiders Business School – the confidential site for Insiders. We can publish abridged versions of your article that feature in our main stream marketing and on our blog.
- Network with us – once a month. (No August date.)
- Join the Insiders to keep in regular contact and build relationships. This works very well to secure business and ensure repeat business.
- Engage with us across our social media – all account details on our website.

We aim to promote you and what you feel you can offer to our members; therefore we are open to ideas too.

By working with us through this programme you enable us to keep the costs to small businesses low and we welcome the opportunity to put experts before our members.

[If you haven't already joined the Insiders you can do this here.](#)
